

PROPOSAL FOR HARBOR POINT DENTAL

Patient portal refresh

A simpler way for patients to book, reschedule and pay, on any phone.

PREPARED FOR
Harbor Point Dental

PREPARED BY
Jordan Lee

VALID UNTIL
31 October 2026

Summary

Harbor Point Dental takes most bookings by phone, and about one in five appointments is missed. We propose a refreshed patient portal with online booking, automatic reminders and card payments, built on the practice system you already use.

What we will deliver

- Online booking and rescheduling that shows real availability
- Text and email reminders two days and two hours before each visit
- Secure card payments and saved receipts
- A short training session for the front desk team

Timeline

PHASE	WHAT HAPPENS	WEEKS
Discover	Interviews with staff and five patients	2
Design	Screens tested on real phones	3
Build	Portal, reminders and payments	5
Launch	Training, go-live and two weeks of support	2

Investment

ITEM	PRICE
Discovery and design	\$14,500
Build and testing	\$26,000
Training and launch support	\$4,200
Total	\$44,700

Why Acme Co.

We have built booking tools for three clinics in the region. Each one cut missed appointments by at least a third within six months. We work in short cycles, show you progress every week and hand over everything you need to run the portal yourselves.

Next steps

- Reply to confirm the scope, or tell us what to change.
- We send a short agreement and a start date.
- Kick-off meeting at the practice in the first week.
