

PROPOSAL FOR RIVERSIDE LIBRARY

Community room booking

Let residents find and book the library's three community rooms online.

The problem

Room requests arrive by phone, email and paper forms. Staff spend several hours a week checking a shared calendar by hand, and double bookings still happen.

Our recommendation

- A public calendar that shows free and booked times for each room
- Simple request form with automatic confirmation emails
- A staff view to approve, move or cancel bookings
- Monthly usage report for the library board
